

# Ways to Bring Quotes Into an Essay

- \* In the text, it says...  
(In the text, it says, "And so Dog runs...")
- \* Give a mini-summary to set up the quote.  
(After Magpie discovers that running feels like flying, it says, "And so Dog runs...")
- \* Tell who, from what text, you are quoting and what that character is aiming to do, and then add his or her exact words.  
(The narrator in FOX conveys the setting by saying...)  
(Dog, the main character in FOX, shows his love for her by saying...)
- \* Use just a few words in the middle of a sentence.  
(Dog does what makes Magpie happy "every day" for months!)
